BUSINESS OPPORTUNITY RULE R511993

522418-70373

Dear Sir or Madam,

I have an income from my Quixtar business that is allowing me to live financially and also enjoy many friendships.

Since I am in my 80's young, all of this change would greatly affect my business.

My prospects receive information and a full money back guarantee when they join me in business. It is so obvious that hard work is required to build a business with a livable income and that this is not a scheme to get rich. Waiting a week to register just adds nothing but confusion.

To have to now be concerned with litigation list and giving my personal financial record would be inappropriate and more than I can even manage at this point in my life.

I consider it rude to pass out names and phone numbers of people in business with me, to personal and offensive.

Please review your thinking and allow me to continue my business, your changes would punish me and affect my life.

Thank you,

[REDACTED]

Dolores Hinds
